

- One of the best professors I have ever had. She is so sweet and really cares about the students & their achievements. I loved this class and prof. Timberlake!
- Professor Timberlake has probably been my favorite professor here. She is understanding and so passionate about this class that it is inspiring! I feel prepared and am excited to have my own inclusive classroom one day because of her.
- Best FSA course I've taken so far.
- Great class, Great Professor. I'm gonna miss it.
- Maria Timberlake is an amazing professor. Her passion & drive reflects on us students positively.
- Although I was confused a few times, this was my favorite major class so far. Mrs. Timberlake is such a kind and caring woman. I hope to be in her class again soon! 100% Best Teacher!
- I really enjoy the way she can control the classroom setting.
- Four words, cute as a button! I love this teacher, she is amazing and really makes me feel like will succeed! Organization of assignments could have been a little better, but overall she was great. I learned so much and now I am in the right major!
- Class ideas and topics were relevant and honest. I struggled with deadlines being clear. And transferring from Blackboard and class assignments.
